CN 1,3-Dioxolan-2-one, 4-[[[(3,3,4,4,5,5,6,6,7,7,8,8,8-tridecafluorooctyl)oxy]methyl]- (9CI) (CA INDEX NAME)

RO[C@H]1[C@H](O)[C@H](O)[C@H]1O

of the resulting glyceryl ether carbonates. Thus, 200 g octyl glycidyl ether was autoclaved with Aldamac L (hydrotalcite) at 50° and 5 MPa CO<sub>2</sub> for 12 h to give 220 g octyl glyceryl ether carbonate, which was hydrolyzed with NaOH in H<sub>2</sub>O to afford 85% octyl glyceryl ether.
